***Allowable Subject Matter***

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or suggest a honeycomb structure having a first region of cells adjacent the outer peripheral wall that have a wall thickness that is continuously increased along an axis extending to the outer peripheral wall, and wherein fillets are formed at intersections between the interior walls in the first region of cells, the radius of the fillets is continuously increased along an axis extending to the outer peripheral wall. The most relevant prior art of record is U.S. Patent No. 4,335,023 (Dettling et al.), which discloses a honeycomb structure where fillets are formed at intersections between interior walls of cells. The radius of the fillets in the reference does not increase continuously along an axis extending to the outer peripheral wall, and the wall thickness also does not increase.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
